All determinations of the Index Administrator described herein shall be made according to the terms set out herein and, save for manifest error and subject as provided in the Overview, shall be final and binding on all parties.

The Index Administrator is not obliged to enter into or promote transactions or investments that are linked to the Index.

Subject as provided by law, the Index Administrator is under no obligation to maintain or calculate the Index and may cancel or cease to calculate the Index at any time.

The Index Administrator does not assume any obligation or duty to any party and under no circumstances does the Index Administrator assume any relationship of agency or trust or of a fiduciary nature for or with any party. Any calculations or determinations in respect of the Index or any part thereof shall be made by the Index Administrator acting reasonably and in good faith and shall (save in the case of manifest error) be final, conclusive and binding, subject as provided in the Overview. The term "manifest error" as used herein shall mean an error that is plain and obvious and can be identified from the results of the calculation or determination itself without: (i) recourse to any underlying data; or (ii) any application or re-application of any formulae.

The Index Administrator may delegate and/or transfer any of its obligations and/or functions to one or more third parties as it deems appropriate from time to time.

The Index Administrator makes no express or implied representations or warranties as to (a) the advisability of purchasing or assuming any risk in connection with any transaction which references or is otherwise linked to this Index, (b) the levels at which the Index stands at any particular time on any particular date, (c) the results to be obtained by any party from the use of the Index or any data included in it for the purposes of issuing securities or carrying out any financial transaction linked to the Index or (d) any other matter. Without prejudice to the Index Owner or the Index Administrator's obligations under any regulatory system, and without limiting any of the foregoing, in no event shall the Index Owner or the Index Administrator have any liability (whether in negligence or otherwise) to any person for any direct, indirect, special, punitive, consequential or any other damages (including lost profits) even if notified of the possibility of such damages.

Nothing herein shall be taken to exclude any liability for fraud on the part of the Index Administrator.

Conflicts of Interest

Conflicts of interest may exist or arise between the Index Administrator and Deutsche Bank entities acting in other capacities, including as administrator for the Index or as counterparty to a transaction. Each relevant Deutsche Bank entity will pursue actions and take steps that it deems appropriate to protect its own interests without regard to the consequences for investors in respect of any investment or instrument linked or relating to the Index or otherwise.

Deutsche Bank entities shall be entitled to receive fees or other payments pursuant to investments or instruments linked or relating to the Index or otherwise and to exercise all rights, including rights of termination or resignations, which they may have, even though doing so may have a detrimental effect on investors in any investment or instrument linked or relating to the Index.

Trading and other transactions by Deutsche Bank AG or its affiliates

Deutsche Bank AG and/or its affiliates may hedge its obligations under any relevant instruments or financial products linked to the Index by purchasing or selling securities and other assets, or listed or over-the-counter options, futures, swaps or other derivative financial instruments underlying or linked to the Index. Although they are not expected to, any of these hedging activities may adversely affect the value of such assets, and therefore the Index Closing Level or the value of any relevant instruments or financial products linked to the returns from these hedging activities while the level of the Index and/or relevant instruments or financial products linked to the Index declines.

Deutsche Bank AG and/or its affiliates may also engage in trading in securities and other assets, or listed or over-the-counter options, futures, swaps or other derivative financial instruments underlying or linked to the Index on a regular basis as part of their general broker-dealer and other businesses, for proprietary accounts, for other accounts under management or to facilitate transactions for customers. Any of these activities could adversely affect the value of such assets, and therefore the Index Closing Level or the value of any relevant instruments or financial products linked to the Index. With respect to any of these activities, neither Deutsche Bank AG nor any of its affiliates has any obligation to take the level of the Index into consideration at any time.

By investing in a Financial Product, each Financial Product Investor is deemed to acknowledge, and agree, that it will keep the methodologies, strategies and analysis provided to it in respect of the Index and Index Description confidential save as may be required by law or regulation, for disclosure to its professional advisers (other than any competitor of the Index Administrator) or for the purposes of any legal proceedings or for the purposes of providing information and disclosure necessary for any purpose in relation to investing in a Financial Product.

This description (the "**Index Description**") sets out the rules (the "**Index Rules**") applicable to the Deutsche Bank Nordic Bond Fund Basket Series II 2% Index (Bloomberg Ticker: *DBXEABMA* <Index>) (the "**Index**") and the basis on which the Index will be calculated. The Index is a Deutsche Bank AG proprietary index. The Index is the intellectual property of Deutsche Bank AG ("**Deutsche Bank AG**" or the "**Index Owner**", which expression shall include any successor in such capacity). The Index Owner owns the copyright and all other intellectual property rights in the Index and this Index Description. Any use of these intellectual property rights must be with the prior written consent of the Index Owner.

The Index will be governed by the Index Administrator (as defined below). The initial Index Administrator shall be Deutsche Bank AG operating through Deutsche Bank Index Quant ("**DBIQ**"), an independent research unit within Deutsche Bank AG via its internal processes and the "**Index Administrator**" shall mean Deutsche Bank AG acting in such capacity or any successor thereto. The Index Administrator controls the creation and operation of the Index administrative process, including all stages and processes involved in the production and dissemination of the Index. Notwithstanding that the Index relies on information from third party sources, the Index Administrator has primary responsibility for all aspects of the Index administration and determination process.

The Index Closing Levels will be calculated by the Index Administrator in respect of each Index Business Day from, and including, the Initial Valuation Date.

Whilst the Index is rules based, the Index Rules confer on the Index Administrator the ability to make certain determinations, calculations and adjustments in relation to the Index in particular circumstances, provided that the Index Administrator will exercise its reasonable discretion in relation thereto.

Unless otherwise stated, the Index Administrator will make all determinations and calculations required pursuant to the Index Rules. Notwithstanding any reference to the contrary (if any) in the Index Rules, all determinations, calculations, modification or adjustments made and/or any exercise of discretion by the Index Administrator will be made by it with reasonable discretion by reference to such factors as the Index Administrator deems appropriate.

Neither the Index Owner or the Index Administrator is obliged to enter into or promote transactions or investments that are linked to the Index and neither the Index Owner or the Index Administrator makes any express or implied representations or warranties as to: (a) the advisability of purchasing or assuming any risk in connection with any such transaction or investment; (b) the levels at which the Index stands at any particular time in respect of any particular date; (c) the results to be obtained by the issuer of any security or any counterparty or any such issuer's security holders or customers or any such counterparty's counterparties or customers or any other person or entity from the use of the Index or any data used or published in connection with the Index in connection with any licensed rights or for any other use; or (d) any other matter. Neither the Index Owner or the Index Administrator makes any express or implied representations or warranties of merchantability or fitness for a particular purpose with respect to the Index or any data used or published in connection with the Index.

The initial Index Administrator has implemented and maintains the DBIQ User Guidance and Administrator Handbook Overview (the "**Overview**"), which sets out a summary of the policies, procedures and controls implemented by the management of the Index Administrator to promote sound business practices for the lifecycle management of the Index Owner's proprietary benchmarks by the Index Administrator. The Overview also includes the Index Administrator's policy related to quality of benchmarks and input data management. Additional issues related to governance, controls, benchmark classification and risk controls, restatement and calculation error management, periodic reviews and conflicts of interest are also addressed. The Overview is available on <http://index.db.com/> (the "**DBIQ Website**"). References in this document to the Overview are made with respect to the version of the Overview as of the date of this index description.

1 General

This section should be read as an introduction to the Index Description but is no substitute for reviewing the Index Description in full. Capitalised terms not otherwise defined shall have the meanings given to them in section 3 (Calculation of the Index Closing Level).

The Index is intended to reflect the risk-adjusted performance of a basket (the “**Basket**”) of UCITS funds (the “**Basket Components**”), comprised as follows:

(a) With respect to any Business Day up to (and including) the Amendment Effective Date:

j	Percentage Weight	Name of the Basket Component	Currency	ISIN	Bloomberg Ticker
1	1/2	Mandatum Life SICAV-UCITS – Mandatum Life Nordic High Yield Total Return Fund - A EUR cap.	EUR	LU1112754756	MLNHYAE LX
2	1/2	Alfred Berg Income A SEK	SEK	SE0016275697	ALABISA SS

(b) With respect to any Business Day from (and including) the first Business Day following the Amendment Effective Date:

i	Percentage Weight	Name of the Basket Component	Currency	ISIN	Bloomberg Ticker
<u>1</u>	<u>1/2</u>	<u>Mandatum Life SICAV-UCITS – Mandatum Life Nordic High Yield Total Return Fund - A EUR cap.</u>	<u>EUR</u>	<u>LU1112754756</u>	<u>MLNHYAE LX</u>
<u>2</u>	<u>1/6</u>	<u>Pareto ESG Global Corporate Bond A</u>	<u>SEK</u>	<u>LU1199945780</u>	<u>PARGCBA LX</u>
<u>3</u>	<u>1/6</u>	<u>Case Röntefond Investment Grade</u>	<u>SEK</u>	<u>SE0000577280</u>	<u>CASTAVK SS</u>
<u>4</u>	<u>1/6</u>	<u>Norron Sustainable Preserve RC SEK</u>	<u>SEK</u>	<u>LU0580530409</u>	<u>NPRESRC LX</u>

In order to seek to achieve such risk adjustment, the Index provides for a dynamic allocation strategy to be applied in relation to the Basket Level. The purpose of the dynamic allocation strategy is to control the level of exposure that the Index has to the Basket. The participation of the Index in the performance of the Basket will be determined on each Index Business Day and is represented by the exposure. If the level of risk (historical realised volatility) of the Basket over a rolling 20 Business Day period determined in respect of the Business Day immediately preceding the relevant day is above 2.00 per cent. (the “**Vol Target**”), the exposure of the Index to the Basket will be less than 100 per cent. and will reflect the proportion of the Vol Target to the historic realised volatility. For the avoidance of doubt, in such circumstances, the remainder of the exposure of the Index, other than the exposure to the Basket, will not be allocated to any other instruments nor cash, hence will not accrue any returns nor interest. If the level of risk (historic realised volatility) of the Basket over a rolling 20 Business Day period determined in respect of the Business Day immediately preceding the relevant day is below the Vol Target, the exposure of the Index to the Basket will be higher than 100 per cent. and will reflect the proportion of the Vol Target to the historic realised volatility, subject to a maximum of 200 per cent. The exposure may change on each Index Business

Day.

The administrator of the Index is Deutsche Bank AG, or any successor duly appointed by Deutsche Bank AG in its capacity as administrator of the Index.

The Index is calculated by the Index Administrator in respect of each Index Business Day from (and including) 4 March 2022 (the “**Initial Valuation Date**”), as more fully described in section 3 (*Calculation of the Index Closing Level*) below. The Index Closing Level in respect of each Index Business Day will be made available as soon as reasonably practicable after the Net Asset Value of each Basket Component is published in accordance with section 4 (*Index Publication*) below.

The Index was established on the Initial Valuation Date and the Index Closing Level on the Initial Valuation Date was deemed to be 100. The Index is calculated and published in SEK currency.

The Index contains adjustment provisions which entitle the Index Administrator to make such modifications and/or changes to the methodology of the Index in its sole and absolute discretion deems appropriate, as described in section 3 (*Calculation of the Index Closing Level*), section 5 (*Index Disruption and Cancellation*) and section 6 (*Change of methodology and time of determinations*) below. If market, regulatory, judicial, financial, fiscal or other circumstances arise that would, in the determination of the Index Administrator, necessitate or make desirable a modification or change to this Index Description in order for the Index to continue to be calculated and determined notwithstanding the relevant circumstances, the Index Administrator may make such modifications or changes.

The Overview sets out the process for making changes to its benchmarks as a general matter and the internal oversight and approval process that DBIQ will go through. It also sets out DBIQ's procedures for consulting on and notifying changes. Any such modification or change in methodology described in this Index Description shall be made in accordance with Section 9.2 (*Change to a Benchmark*) of the Overview.

The Index Closing Level is, subject as provided below, calculated in respect of each Index Business Day by the Index Administrator and may be used in connection with one or more financial products (each a “**Financial Product**”) relating to the Index. The Financial Products may be issued or entered into by Deutsche Bank AG or other financial product providers. Each investor in relation to Financial Products is referred to as a “**Financial Product Investor**”.

For so long as the Index Administrator calculates the Index Closing Level, calculations and determinations by the Index Administrator in connection with the Index will be made in reliance upon the information of various publicly available sources. Although the Index Administrator will obtain information for inclusion in or for use in the calculation of the Index from sources which the Index Administrator considers reliable, neither the Index Administrator nor the Index Owner will independently verify such information and do not guarantee the accuracy and/or the completeness of the Index or any data included in the Index. The Index Administrator shall not be liable (whether in negligence or otherwise) to any person for any error in the Index and the Index Administrator is under no obligation to advise any person of any error therein.

All determinations referred to below will be made by the Index Administrator by reference to such factors as it deems appropriate and such determinations will, save for manifest error and subject as provided in the Overview, be binding on all parties.

The Index contains Index Disruption Event provisions which apply when events require the Index Administrator to calculate the Index on an alternative basis were such event to occur or exist on such day, as described in section 5 (*Index disruption and cancellation*) below. If an Index Disruption Event occurs, the Index Administrator may make such adjustments and/or determinations in relation to the Index as it may determine, in its sole and absolute discretion, appropriate to facilitate the calculation and publication of the Index Closing Level or, if such adjustment or calculation cannot be made, defer calculation and publication of the Index Closing Level and, in some cases, permanently cease to

calculate the Index. These events may have an adverse effect on Financial Product Investors. Index Closing Levels which are calculated following any such delay may give different economic results in relation to the Financial Products than the Index Closing Levels which would have prevailed but for such delay. If the Index is cancelled or adjusted, this may lead to the calculation agent in respect of a Financial Product taking action under provisions of the Financial Product which may have an adverse effect on Financial Product Investors.

Any such adjustments and/or determinations or decisions to permanently cease to calculate and publish an Index Closing Level in respect of the Index shall be made by the Index Administrator as far as reasonably practicable in accordance with Section 9 (*Changes to and Retiring a Benchmark*) of the Overview.

The Index (and Description) does not pursue any environmental, social and governance (“ESG”) objectives or take into account any ESG factors.

This section 1 (*General*) is subject to and qualified by the remainder of this Index Description.

2 Investment Risk Factors

The risk factors set out in this section 2 are not a comprehensive list of all risks that might have an adverse effect on the value of the Index. When considering an investment in any Financial Product, prospective Financial Product Investors should review carefully the whole of the Index Description and form their own decisions as to risks associated with the Index.

2.1 The Index

The Index offers a risk-adjusted exposure to the Basket. The level of such exposure, which could be 200 per cent. or lower, is affected by the annualised 20 Business Day rolling realised volatility (as described in section 3 (*Calculation of the Index Closing Level*)). If the annualised 20 Business Day rolling realised volatility (as described in section 3 (*Calculation of the Index Closing Level*)) is greater than 2.00 per cent., the exposure of the Index to the Basket will be less than 100 per cent. For the avoidance of doubt, in such circumstances, the remainder of the exposure of the Index, other than the exposure to the Basket, will not be allocated to any other instruments nor cash, hence will not accrue any returns nor interest. If the annualised 20 Business Day rolling realised volatility (as described in section 3 (*Calculation of the Index Closing Level*)) is less than 2.00 per cent., the exposure of the Index to the Basket will be higher than 100 per cent., subject to a maximum of 200 per cent.

As a result, the value of any Financial Product may be affected by movements in the Net Asset Value of each Basket Component.

When considering any Financial Product, prospective investors should be aware that the Index Closing Level can go down as well as up and that the performance of the Index in any future period may not mirror its past performance.

The Index is a rule-based trading strategy which makes notional investments in certain financial instruments, as further described in section 3 (*Calculation of the Index Closing Level*). Investors have no proprietary interest in the Fund Shares of any Basket Component notionally invested in pursuant to the strategy of the Index. Any investment linked or related to the Index will not be the same as a direct investment in the Basket or in any derivative (whether listed on an exchange or over-the-counter) relating to the Basket.

2.2 Exposure to the Fund and volatility

It should be noted that the exposure of the Index to the Basket will be reset on each Index Business Day for the Index by reference to the volatility control of 2.00 per cent. Whilst such volatility control is intended to manage the volatility, and consequently limit potential losses of the Index, such resetting may also limit exposure to potential positive performance of the Basket in a way that would not have

happened if no such resetting had been employed.

2.3 Index Administrator's powers

The Index Administrator has a number of discretions in relation to the Index which must always be exercised in good faith and in a commercially reasonable manner. Nevertheless, the exercise of these discretions may have a significant effect on a Financial Product. Such discretions include (without limitation) the following:

- (a) If a force majeure event (as described in section 5 (*Index disruption and cancellation*)) occurs, the Index Administrator may adjust the calculation of the Index or postpone or cancel and permanently cease to calculate the Index, in accordance with section 5 hereof. A force majeure event (as described in section 5 (*Index disruption and cancellation*)) may occur where events beyond the control of the Index Administrator, such as natural or man-made disasters or acts of terrorism or systems failures, prevent the Index Administrator from carrying out procedures in relation to the Index.
- (b) If an Index Disruption Event (as described in section 5 (*Index disruption and cancellation*)) occurs, the Index Administrator may cancel and permanently cease to calculate the Index, in accordance with section 5 hereof. An Index Disruption Event with respect to this Index (as described in section 5 (*Index disruption and cancellation*)) may occur if a disruption event occurs with respect to any Basket Component (as described in section 5 (*Index disruption and cancellation*)).
- (c) If fiscal, market, regulatory, juridical, financial circumstances or any other circumstances arise that would necessitate or make desirable a modification or change to an Index methodology, to account for the changed circumstances, the Index Administrator may make such modifications or changes.

2.4 Conflicts of interest for Deutsche Bank Entities

As at the Initial Valuation Date, Deutsche Bank Index Quant (DBIQ), a research unit within Deutsche Bank AG via its internal processes, acts as Index Administrator. Conflicts of interest may exist between the Index Owner, initial Index Administrator and Deutsche Bank AG and its affiliates (each a "**Deutsche Bank Entity**").

A Deutsche Bank Entity may also act as the issuer, counterparty, or obligor in respect of any Financial Product and as a dealer, calculation agent or hedge provider in relation to a Financial Product. Various conflicts of interest might exist or arise as a result of these different roles as well as from the overall activities of Deutsche Bank Entities. Deutsche Bank AG has a regulatory obligation to take reasonable steps to manage such conflicts fairly. Such reasonable steps include information walls being maintained between the personnel of Deutsche Bank Entities involved in different roles. However, as with any set of systems and controls there is a risk that such information walls might not be effective in all cases.

Each relevant Deutsche Bank Entity will pursue actions and take steps that it deems necessary or appropriate to protect its interests without regard to the consequences for investors in respect of any investment or financial instrument linked to the Index or otherwise.

2.5 Hedging arrangements

The Index is calculated as a "notional" index. This means that there is no requirement for the Index Administrator to hold investments in the Basket or investments equal to those invested in by the Basket Components. Deutsche Bank Entities may, for their own account, acquire or hold assets or positions relating to the Basket or the Index in order to meet obligations in respect of a Financial Product or for any other purpose, but Deutsche Bank Entities are not required to do this. If they do, Deutsche Bank Entities will have certain rights pursuant to such assets or positions and will pursue

actions and take steps that they deem appropriate to protect their own interests. Each Financial Product Investor is deemed to acknowledge and agree that an investment in a Financial Product does not give the investor any legal or beneficial interest in any of the Basket Components, in any assets invested in by the Basket Components or in any assets invested in by any Deutsche Bank Entity.

2.6 Future regulatory changes

Legal and regulatory changes could adversely affect the value of the Index. In addition, many governmental agencies and regulatory organisations are authorised to take extraordinary actions in the event of market emergencies. The effect of any future legal or regulatory change on any Basket Component is not possible to predict, but could be substantial and adverse.

2.7 Risks relating to the service providers of the Index

Deutsche Bank Entities provide various services to the Index.

(a) Failure to perform

The failure by a Deutsche Bank Entity to provide such services may jeopardise the performance of the Index and linked Financial Products.

(b) No fiduciary duties

In performing each of the various services in relation to the Index, the Index Administrator does not act on behalf of, or accept any duty of care or any fiduciary duty to, any Financial Product Investors or any other person.

(c) No disclosure of information

Deutsche Bank Entities may be in possession at any time of information in relation to the Index, Basket and/or Basket Components which may not be available to Financial Product Investors. 3 Calculation of the Index Closing Level

The closing level of the Index (the “**Index Closing Level**”) is calculated by the Index Administrator in respect of each Index Business Day in accordance with the methodology set out below.

The Index Closing Level shall not be less than zero.

The Index Closing Level in respect of the Initial Valuation Date is equal to 100.

3.1 Calculation of the Exposure of the Index to the Fund

The Exposure indicates to what extent the Index participates in the performance of the Basket as calculated in accordance with this section 3.1.

The Exposure in respect of an Index Business Day (t) depends on the level of risk (realised volatility) of the Basket over a rolling 20 Business Day period ending on (and including) the Business Day immediately preceding Index Business Day (t). If the realised volatility is greater than the VolControl, the Exposure will be less than 100 per cent. The greater the amount by which the realised volatility

exceeds the VolControl, the lesser the Exposure will be. In turn, if the realised volatility is less than the VolControl, the Exposure will be greater than 100 per cent but no greater than 200 per cent.

The "**Exposure**" in respect of an Index Business Day will be an amount calculated by the Index Administrator equal to the lesser of:

- (a) the quotient of:
 - (1) the VolControl (as numerator); and
 - (2) the Historical Volatility in respect of the Index Business Day immediately preceding such Index Business Day (as denominator); and
- (b) 200 per cent. (expressed as 2.00).

Expressed as formula:

$$\text{Exposure}_t = \text{Min} \left\{ \frac{\text{VolControl}}{\text{HistoricalVol}_{t-1}}; 200\% \right\}$$

Where:

"**VolControl**" means 2.00 per cent. (expressed as 0.02);

"**HistoricalVol_{t-1}**" means, in respect of an Index Business Day (t), the Historical Volatility in respect of the Index Business Day immediately preceding such Index Business Day (t);

"**Historical Volatility**" means, in respect of an Index Business Day, the annualised volatility of the historical daily returns of the Basket Level in respect of each Business Day falling in the period from, and including, the Business Day that is 19 Business Days immediately preceding such Index Business Day up to, and including, such Index Business Day and is an amount calculated by the Index Administrator equal to the square root of the product of:

- (a) the quotient of:
 - (1) 252 (as numerator); and
 - (2) 19 (as denominator); and
- (b)
 - (1) the aggregate, in respect of each Business Day falling in the period from, and including, the Business Day that is 19 Business Days immediately preceding such Index Business Day up to, and including, such Index Business Day, of the square of the natural logarithm of the quotient of:
 - (i) the Basket Level in respect of such Business Day (as numerator); and
 - (ii) the Basket Level in respect of the Business Day immediately preceding such Business Day (as denominator),

minus

- (2) the product of:
 - (i) the quotient of:
 - (A) one (as numerator); and
 - (B) 20 (as denominator); and

- (ii) the square of the aggregate, in respect of each Business Day falling in the period from, and including, the Business Day that is 19 Business Days immediately preceding such Index Business Day up to, and including, such Index Business Day, of the natural logarithm of the quotient of:
 - (A) the Basket Level in respect of such Business Day (as numerator); and
 - (B) the Basket Level in respect of the Business Day immediately preceding such Business Day (as denominator).

Expressed as a formula:

$$\text{HistoricalVol}_t = \sqrt{\frac{252}{19} \left\{ \sum_{i=0}^{19} \left(\ln \frac{B_{t-i}}{B_{t-i-1}} \right)^2 - \frac{1}{20} \left(\sum_{i=0}^{19} \ln \frac{B_{t-i}}{B_{t-i-1}} \right)^2 \right\}}$$

Where:

“**B_{t-i}**” means, in respect of an Index Business Day (t) and the Business Day that is (i) Business Days immediately preceding such Index Business Day (t), the Basket Level in respect of such Business Day.

“**B_{t-i-1}**” means, in respect of an Index Business Day (t) and a Business Day that is (i) Business Days immediately preceding such Index Business Day (t), the Basket Level in respect of the Business Day immediately preceding such Business Day.

For the avoidance of doubt and in relation to the historical volatility calculation in respect of each Business Day of the period starting from, and including, the Business Day that is 19 Business Days immediately preceding the Initial Valuation Date to, and including, the Initial Valuation Date, shall be calculated based on the Basket Levels in respect of such Business Days falling prior to the Initial Valuation Date.

3.2 Calculation of the Basket Level

The “**Basket Level**” is calculated in respect of each Business Day as:

(a) With respect to any Business Day up to (and including) the Amendment Effective Date:

-the product of (i) the Basket Level on the Initial Basket Calculation Date and (ii) the quotient of 1 divided by 2 and (iii) the sum of the quotient of the Net Asset Value of Basket Component j on the Business Day t as numerator and Net Asset Value of Basket Component j on the Initial Basket Calculation Date as denominator for each Basket Component.

Expressed as a formula:

$$B_t = B_0 \times \frac{1}{2} \times \sum_{j=1}^2 \frac{NAV_t^j}{NAV_0^j}$$

Where:

B_0 is the Basket Level with respect to the Initial Basket Calculation Date.

B_t is the Basket Level with respect to the Business Day t.

NAV_0^j is the Net Asset Value of Basket Component j on the Initial Basket Calculation Date.

NAV_t^j is the Net Asset Value of Basket Component j on the Business Day t.

The Basket Level in respect of the Initial Basket Calculation Date is set at 100.

(b) With respect to any Business Day from (and including) the first Business Day following the Amendment Effective Date:

the product of the Basket Level on the Amendment Effective Date and the sum of the products of (i) the Percentage Weight of Basket Component j and (ii) the quotient of the Net Asset Value of Basket Component j on the Business Day t as numerator and the Net Asset Value of Basket Component j on the Amendment Effective Date as denominator for each Basket Component.

Expressed as a formula:

$$B_t = B_A \times \sum_{j=1}^4 PW_j \times \frac{NAV_t^j}{NAV_A^j}$$

Where:

B_A is the Basket Level with respect to the Amendment Effective Date.

B_t is the Basket Level with respect to the Business Day t.

PW_j is the Percentage Weight of Basket Component j

NAV_A^j is the Net Asset Value of Basket Component j on the Amendment Effective Date.

NAV_t^j is the Net Asset Value of Basket Component j on the Business Day t.

3.3 Calculation of the Index Closing Level

In respect of each Index Business Day (t) from (but excluding) the Initial Valuation Date, the Index Administrator will calculate the Index Closing Level which is an amount equal to the product of:

- (a) the Index Closing Level in respect of the Index Business Day immediately preceding Index Business Day (t); and
- (b)
 - (1) one; *plus*
 - (2) the product of:
 - (x) the Exposure in respect of the Index Business Day that precedes such Index Business Day (t) by two Index Business Days; and
 - (y)
 - (i) the Performance in respect of the Basket in respect of such Index Business Day (t); *minus*
 - (ii) the Cash Return in respect of Index Business Day (t),

Expressed as formula:

$$ICL_t = ICL_{t-1} \times \left\{ 1 + Exposure_{t-2} \times \left(\frac{B_t}{B_{t-1}} - 1 - CR_t \right) \right\}$$

Where:

“**CR_t**” means, in respect of an Index Business Day (t), the Cash Return in respect of such Index Business Day (t);

5.3 Consequence of Index Disruption Event

If the Index Administrator determines that an Index Disruption Event occurs or subsists on any Index Business Day in respect of the Index, the Index Administrator will determine in its sole and absolute discretion whether the occurrence or existence of such event is material in respect of the calculation of the Index.

In the event that the Index Administrator determines that the occurrence or existence of an Index Disruption Event is material, it will make such determinations and/or adjustments that in its reasonable discretion are required to take account of such event.

The Index Administrator will aim to ensure that the intended commercial purposes of the Index can be achieved to the highest possible degree. Each determination, adjustment and/or action may affect the calculation and publication of any Index Closing Level in respect of any Index Business Day falling on or after the occurrence of such Index Disruption Event but will not have any retrospective effect in respect of Index Closing Levels published prior to the occurrence of such Index Disruption Event.

In particular, and without limitation, the Index Administrator in exercising its reasonable discretion may:

- (a) suspend the determination of the Index Closing Level until such time as the Index Administrator determines that no Index Disruption Event exists that would impair the

determination of the Index Closing Level; and/or

- (b) make such adjustments to the Index Closing Level for any Index Business Day and/or the methodology or formulae set out in this Index Description as it determines necessary in order to provide for any consequences of any Index Disruption Event.

If the suspension of the determination of the Index Closing Level referred to in subparagraph (a) above has been continuing for more than eight (8) calendar days and/or the Index Administrator determines that there are no adjustments that could be made pursuant to subparagraph (b) that would adequately provide for the consequences of the relevant Index Disruption Event and/or the adjustments to the Index Closing Level referred to in subparagraph (b) above have not been capable of adequately providing for the Index Disruption Event, the Index Administrator may permanently cease to calculate and publish the Index Closing Level and the Index shall be cancelled.

For the avoidance of doubt, where there is more than one Index Disruption Event in occurrence at the same time, these provisions apply separately to each such occurrence. The Index Administrator is under no obligation to monitor or determine whether or not an Index Disruption Event has occurred and will not be required to, and will not be responsible for any failure to, make any determination, waiver, declaration or decision whatsoever in relation to an Index Disruption Event. In making or omitting to make any such determination, waiver, declaration or decision, the Index Administrator shall be under no fiduciary duty to any person.

5.4 Adjustments and determinations to be made in accordance with Overview

Any such adjustments and/or determinations or decisions to permanently cease to calculate and publish an Index Closing Level in respect of the Index pursuant to section 5.3 above shall be made by the Index Administrator as far as reasonably practicable in accordance with Section 910 (*Changes to and Retiring a Benchmark*) of the Overview.

6 Change of methodology and time of determinations

In calculating and determining the value of the Index, the Index Administrator shall, subject as provided below, employ the methodology described above and its application of such methodology shall be conclusive and binding. While the Index Administrator currently employs the above described methodology to calculate the Index, no assurance can be given that fiscal, market, regulatory, juridical, financial or other circumstances (including, but not limited to, any changes to or any suspension or termination of or any other events affecting transactions on the same or similar terms to any Instrument for which values will be determined in relation to the Index) will not arise that would, in the view of the Index Administrator, necessitate or make desirable a modification of or change to such methodology and the Index Administrator shall be entitled to make any such modification or change in its sole and absolute discretion.

Accordingly:

- (i) The Index Administrator shall be entitled to make such modifications and/or changes as it in its sole and absolute discretion deems appropriate, including (without limitation):
 - (a) to correct any manifest error or proven error contained in the methodology described in this Index Description; and/or
 - (b) to cure, correct or supplement any defective provision contained in this Index Description; and/or to cure, correct or supplement any defective provision contained in the methodology described in this Index Description; and/or
 - (c) if market, regulatory, juridical, financial, fiscal or other circumstances arise, and such circumstances would, in the determination of the Index Administrator, necessitate or make desirable such a modification or change of the methodology described herein

(including, but without limitation, a change in the frequency of calculation of any Index Closing Level) in order for the Index to continue being calculated and determined notwithstanding the relevant circumstances. In deciding what is necessary the Index Administrator will consider and/or take into account what the Index Administrator determines to be the intended strategy of the Index;

- (ii) Further, and without limitation to the above provisions, the Index Administrator shall be entitled to make such modifications and/or changes as it in its sole and absolute discretion deems appropriate:
 - (a) to preserve the intended strategy of the Index, where such modification and/or change is of a formal, minor or technical nature; and/or
 - (b) if market, regulatory, juridical, financial, fiscal or other circumstances arise, and in the determination of the Index Administrator, such modifications and/or changes would assist in maintaining the intended strategy of the Index and/or would ensure that the Index can continue to be calculated and determined by the Index Administrator in light of such circumstances.

In making such modifications however the Index Administrator will:

- (i) ensure that such modifications or changes pursuant to (i) or (ii) above will result in a methodology that is consistent in its intended commercial purpose with the methodology described in this Index Description; and
- (ii) limit any such modification or change to the terms of the Index and/or method of calculating the Index Closing Level.

Subject as provided in the Overview, the Index Administrator may, in its discretion, at any time, terminate the calculation and publication of the Index.

Subject as provided in the Overview, none of the Index Owner or Index Administrator has any legal obligation to consult or inform any person in advance about such modification or change. The Index Calculation Agent will, however, make available following any such modification or change to the Description, a revised Description and the effective date of such revised Description in accordance with section 9 (*Availability and Publication of Index Closing Levels and Adjustments*).

The Overview sets out the processes for making changes to its benchmarks as a general matter and the internal oversight and approval process that DBIQ will go through. It also sets out DBIQ's procedures for consulting on and notifying changes. Any such modification or change in methodology described in this Index Description in accordance with the below shall be made in accordance with Section 910.2 (*Change to a Benchmark*) of the Overview.
